Only You

S Club Juniors

I thought I'd write it in a letter, as I'm too shy to say it to you
I guess I should've known better, but I don't know what else to do
I'm on my way, no turning back
So take me in your arms
And then we'll be right on track
I write these words to you, to tell you just what you mean to me
I hope you like these lines
Cause I love you even more than yesterday
And all I say to you is true, will you return to me
I'll wait and see cause all I need is you
Only you
You helped me through the stormiest weather
You're what I need to guide me through
Without you nothing else matters
You're something I look foward to
You make my day, no holding back
So take me in your arms
And then we'll be right on track
I write these words to you, to tell you just what you mean to me

I hope you like these lines
Cause I love you even more than yesterday
And all I say to you is true, will you return to me
I'll wait and see cause all I need is you
Only you
All I say to you is true
Because to me there is only you
You make my day no turning back
You make my day, no holding back
So take me in your arms
And then we'll be right on track
I write these words to you, to tell you just what you mean to me
I hope you like these lines
Cause I love you even more than yesterday
And all I say to you is true, will you return to me
I'll wait and see cause all I need is you
Only you
It's only you
It's only you

It's only you
