Keep Me In My Plane

WhoMadeWho

watch a movie i've seen 5 times before, falling asleep with my head on the emergency door

> Food tastes good a 50000 feet red wine and cognac, makes me feel complete

> > make me feel safe keep me in my place make me feel safe keep me in my place

The snow and ice a green hill below one more place i would like to go

make me feel safe keep me in my place make me feel safe keep me in my place

watch a movie i've seen 5 times before, falling asleep with my head on the emergency door

> make me feel safe keep me in my place make me feel safe keep me in my place

> make me feel safe keep me in my place make me feel safe keep me in my place

> > --
