

# Built To Break

## USS (Ubiquitous Synergy Seeker)

My life in a cage  
I wake up shower, bleed, and blaze  
And what would I know  
If no one ever told me so.  
There's not much to say  
In such an ordinary daze.  
There's not much to be,  
I'm such an ordinary me. I don't mean to trip  
But it's easier than dealing with it.  
I said it's easier than My life in a maze  
I wake up shower, eat, and blaze  
And what would I know  
If no one ever told me so.  
There's not much to take  
To mend a heart that's built to break.  
There's not much to do  
Resuscitate this heartless fool. I don't mean to trip  
But it's easier than dealing with it.  
I said it's easier than dealing with it.  
I said it's easier than Dealing with this.  
I said it's easier  
Will this get easier? Woke up screaming.  
Wake up dreaming.  
Day out, day in.  
What's the use in playing? I don't mean to trip  
But it's easier  
I don't mean to trip  
But it's easier  
But it's easier  
But it's easier
