Sweetness

Toadies

Peel away your skin, just a little more
You can let me in, just a little more
Can you taste it? I do
When you bite down on the truth
We can peel away just a little more
I'll cut you right down to your sweetness
Right to your sweetness
Well, I know it hurts real bad to lay it open
I've tried so hard myself to make you love it
Well, my love, my pride
I swallow you tonight
We can peel away, just a little more
I'll cut you right down to your sweetness
Right to your sweetness
Peel away, peel away
Cut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in me
Cut down
Cut down
The sinner in me
The sinner in me

The sinner in me
The sinner in me
I'll eat you slow, my sweetness
You give control, my sweetness
I drink you down, my sweetness
I think I found, my sweetness
My sweetness
My sweetness
My sweetness
Cut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in me
Cut down
Cut right down to the soul, to the center of you

I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in me
Cut down
Cut down
The sinner in me
Cut down
Cut down
The sinner in me
