## **Break**

## **Jurassic 5**

[Akil]

Yo, yo, if you had much class

And style like I had

You would be so glad

I see why you so mad

I'm born with it

Like Marvin and Lauren with it[Chali 2na]

Yo, deform with it

The way we perform wit it

You gon' get it

Your rebuttals are long winded

The song ended

If you satisfy[Marc 7]

It's all splendid

Yeah, like Kevin Lockerbie

Rockin' some beige Wallabees

Blinded by the mockery[Soup]

Time is never stoppin' me

Drop the clue

Connected with Cut and Nu

On the...1-2(talking)[All]

There's only one capable

Breaks the unbreakable

Melodies unmakeable patterns

Unescapeable whatever we aim at

We line 'em up

The party is weak from the same rap

Time's up

We payin' homage as well as returnin' favors

Candy for your ears hear us now

Or hear us later[Chali 2na]

We fully capable

Make no mistake if we

BREAK a few rules

Make a few moves

And drop a few jewels

On top of your views

Unstoppable dudes

Using third optical tools

To Rakaa few crews You gotta confuse Melodically

Use rap to sonically bruise cats

Harmonies move over

Chemically glued tracks the ripper[Marc 7]

Formulated fax center

Orchestrated back bender

Sign, Post, Date and send ya

And take you out like placenta

When I'm in your eye end ya

Blend with the beat like shadows and black ninjas[Akil]

Me the epicenter

When I'm rocking the mike

I'm from the earthquake state

Shakin' up your life no aftershock

We blow the spot from the top

We have to rock

Ain't that much time on the clock

Kick rocks

Keep it movin' now pick up the pace

We drop and hit the ground runnin'

Winnin' the race

With limited space and limited papes

At any rate we take your mind

To the realest of states

'cause...Chorus:

[All]

The flow gon' shine

We blow yo mind

With vocal rhyme

And music from my DJ in the back

Gon' shine

We'll blow your mind

With vocal rhyme

My DJ in the back is gonna

BREAK (scratching)[All]

Yo, we payin' homage as well as returnin' favors

Candy for your ears hear us now...[Soup]

I put the Bob in the Bob Diddy

Spit it for y'all city

Use what Allah give me

Flip it if y'all wit me

Kinda black kinda bold

Ghetto soul beautiful

Still in it for you to hold Cover girl centerfold My spot, hot like lava rock I get busy from Panorama City to Lompoc You prefer hood medic procedure Poetical breather with fever 'cause...Chorus[All] There's only one capable Breaks the unbreakable Melodies unmakeable patterns Unescapeable whatever we aim at We line 'em up The party is weak from the same rap Time's up We payin' homage as well as returnin' favors Candy for your ear hear us now Or hear us later(Sample) \*\*For those listeners who didn't feel that\*\* \*\*We just had another one baby\*\*
