Dry

PJ Harvey

I caught it in the face
Coming around again
I thought it was worth waiting
You're caught up in my head
Wet sides from time to time
But mostly I'm just dryYou leave me dry
You leave me dry
You leave me dryYou've come all this way
No hair out of place
You put it all on the stage
You put right in my faceYou leave me dry
You leave me dry
You leave me dryA water well in sight
No water at my sides
I'm sucking on the well
I'm sucking till I'm white
But you leave me dryYou leave me dry
You leave me dry
You leave me dry
You leave me dry
