## **Whatever Makes You Happy**

## **Girls Under Glass**

Whatever makes you happy I'll do it for you Whatever makes you happy I am there for youI see the light in your eyes Like stars so bright They are the dawn in my life I look at you and love this lightWhenever I see you being sad I wanna make you gladWhatever makes you happy I will be there I want to make you happy Here and anywhereWhatever makes you happy I'll do it for you Whatever makes you happy I am there for youWhatever makes you happy I will be there I want to make you happy Here and anywhereWhatever makes you happy I'll do it for you Whatever makes you happy I am there for you
