Dedicated to You

Coltrane/Johnny Hartman

Every river has an ocean it runs to
And I knew if i kept going Some day I'd find you
And now here you are Wrapped in my arm's
And I'm here for you
So what ever it takes I need you to know
With all of my heart with all of my soul
My love it is a song
And I dedicate it to you
I dedicate it to you
Everybody needs somebody
To hold on to
And every feeling I've ever wanted
I found it with you

I know what I feel what I feel it is real
It's all for you
So what ever it takes I need you to know
With all of my heart with all of my soul
My love it is a song
And I dedicate it to you
I dedicate it to you
Ooohhh What ever it takes I need you to know
With all of my heart with all of my soul
My love it is a song
And I dedicate it to you
I dedicate it to you
Every river has an ocean
It runs to
