

# Slow Death

## Uncle Acid and the Deadbeats

I wish that I could find a window  
Somewhere to watch the rain go by  
I wish the darkness in the city would  
find another place to lie  
Now that I can't hear them scream  
They need you here  
I wish that I could finish the killer and  
wash the blood away from here  
A psychopath that's out to get me, under a  
city wrapped in fear  
I wish that I could see the forest from  
all the 'buildings stood like trees  
So when the rain falls down in silence  
I hear no terror in the breeze
