I'm Not Scared Of You

Tim Fite

Mingled hands in winter pockets
Made me think I couldn't stop it
Love came by surprise and I was glad
If I'd known what I know now
I'd never have believed the sound
Of you telling me I could
Make you sad, so sad'cause I'm not scared of you
I'm not afraid what you might say
No, I'm not scared of you
This isn't fear
It's just being near to youLoving you was then so easy
Never wanted you to leave me
Then I saw what you were like
Inside
Maybe one day we can sit
And be ourselves and reminisce
But right now I'm afraid
That I'd just cry, just cryWhen I fall in love again
I'll be so sure to see
Just why that boy needs me
And if things start to fall apart
I'll know down in my heart
It isn't worth the dream
