

He Don't Love You

Human Nature

He don't love you, no. If I was your man
I'd be here every day
If I was your man
I wouldn't treat you that way
He's never home, he never calls
How can you tell me he's yours
If I was him and you were mine
Girl you'd know it for sure If you were my girl
I'd give you it all
Why can't you see he's faking Chorus
He don't love you, no.
But he don't want anyone else to have you
He don't wanna let go
So baby tell me why you
Let him treat you so
When I would do anything to have you
Make your mind up
What you wanna do
He don't love you, no Oh t-t-t-tell me Do you know his friends
Girl do you know the score
Don't you think it's strange
They don't know who you are
He takes you out to somewhere new
Then he leaves you alone
And if you talk to anyone
Then he tells you to go You forgive him then
He does it again
Tell me how long will you take it Chorus
Make your mind up
What you wanna do
He don't love you If you were my girl
I'd give you it all Why can't you see that he's faking Chorus
