

Love Is On Its Way

Velojet

Young hearts
I believe that we are not far
From becoming who we truly are
Love is on its way Dreamers
You see everything in color
While the world is getting darker
Love is on its way So hold on another day
'Cause love is on its way
You'll find it's gonna be okay
'Cause love is on its way It's alright you'll find a brighter day
'Cause love is on its way Leaders
Show us how to love each other
It could help us to recover
Love is on its way Lonely
I believe that you will find me
And together we will truly see
Love is on its way, yeah So hold on another day
'Cause love is on its way
You'll find it's gonna be okay
'Cause love is on its way It's alright you'll find a brighter day
'Cause love is on its way Yeah!
Yeah! Hold on another day
'Cause love is on its way
You'll find it's gonna be okay
'Cause love is on its way It's alright you'll find a brighter day
'Cause love is on its way
'Cause love is on its way
'Cause love is on its way
