Lady Valentine

David Gates

She's a real look
cause she's my heart my inspiration
Lucky is the man who find the child of loveLike a haunting melody
you allowed to sing forever
She always seems to where so well with timeeverybody knows musician needs somebody special
always just the same who keep the crazy dance
better around enough to know for me there's no one finer
and she's mine, she's my lady valentineYour the music your my song
Here with me is where you belong
I need my February nearYour the rythm, your my ryhme
Keep me right into the time
And I'm so happy when you're hereEverybody needs somebody that you can be sure of
Life alone is nowhere that you want to be
sentence isnt long and hopin'
brother you've gotta choose
cause i've got mine
got my lady valentine
