

I Want a Monster to Be My Friend

En Vogue

Some kids just love
To play with dolls
Or put on funny hats
And some make pets
Of birds and fish
And dogs and
Alley cats
That's not the way
I like to play
I'm tired of all these
I need a very
Special friend
Won't you
Help me please? I want a monster
To be my playmate
I want a monster
To be my friend
I want to get
For my own pet
A real live monster
Who's not pretend Oh, I want a monster
To be my playmate
We'd soon become
Good friends because
Although they're hairy
And sometimes scary
They have such soft
And furry paws If I make friends with
A friendly monster
I'd be the best that a
friend could be
I'd let him do
Whatever he wants to
And he'd always
Belong to me So, if you know a
Nice old monster
If you've a monster
To recommend
Ooh, golly gee

Please send him to me
I just can't wait
Until then! I want a monster
A real live monster
I want a monster
Send me my monster
I want a monster
A real live monster
I want a monster
Send my monster
I want a monster
A real live monster
I want a monster
To be my friend! Oh please
Send my monster
Does anybody have
A monster out there
I'll take a
Secondhand monster
He doesn't have
To be new
