Wondergirl

Hey Monday

There I go, go at the speed of sound
I'm higher than a satellite
And you're stuck on the ground
Your cries for help bounce off of me
So don't expect to see
See me waiting here to be
Be your Wondergirl
I'm not gonna save you
Wondergirl
Go save yourself
No way; won't go down in your flames
Because Wondergirl won't save your life
Won't save your life
Won't save your life
There you go, go looking for a fight
I've got a heart of steel
You can't cut and bleed me dry
My secrets, you can never keep
So don't expect to see
See me waiting here to be
Be your Wondergirl
I'm not gonna save you

Wondergirl
Go save yourself
No way; won't go down in your flames
Because Wondergirl won't save your life
I never thought it would end this way
But I can't compete with these addictions that you crave
Now every touch becomes the enemy
And I will never be
Be your Wondergirl
Don't say you love me
Wondergirl
When you hate yourself
No way; won't go down in your flames
Because Wondergirl won't save your life
Wondergirl
I'm not gonna save you

Wondergirl
Go save yourself
No way; won't go down in your flames
Because Wondergirl won't save your life
Won't save your life
Won't save your life
Tonight
