Negative One to Ten

Tsunami Bomb

So these girls live on my street,
or I guess I live on their's.
They thought I was showing them,
but really they made me aware,
just, how momentous music is,
and why we should care.Songs stay with you your whole life,
remind you of time spent and gone,
carry you through dismal days,
and help you to carry on.
I, owe so many positive times.
to my favorite songs.It can be more than just sounds and words,
It can be something that saves you from yourself,
your thoughts, your life, your world.
It can be more than a favorite line.
It can be something that shapes you when you're young,
but gives you freedom at the same time.So these girls live on my street,
