Ghost

Matilda

Our future's hard to tell
We played the game to well
We always points our jealous guns
And you always calls me trunk and
What are we doing darling
This indecision's hurting

You're keeping all the pictures
You're keeping all your wishes
And I can't even really
Tell where my feelings want me
What are we doing darling
I know theese years been hurting

Let's just say it as it is

(X2)
I'm like a Ghost in the night
Can't seem to make it right
I'll keep you awake
I'm your biggest mistake
Regret is too late

I can't believe it ended
Sometimes I still pretend it
So perfect, love illusion
But I drown in confusion
What are we doing darling
Theese years been full of hurting

Somtimes I wish I'd never
Falling in love like ever
I always mess it up and
Look where my feelings got you
What are we doing baby
I don't get why you don't hate me

(I'm like a Ghost in the night
Can't seem to make it right
I'll keep you awake

I'm your biggest mistake
Regret is too late)

I keep you awake

(X2)
I'm like a Ghost in the night
Can't seem to make it right
I'll keep you awake
I'm your biggest mistake
Regret is too late
