Love Me Tonight

Billy Bacon & The Forbidden Pigs

We?ve waited all this time
This long and lonely time
Now the light that trickles down
It soaks into your eyes
And all I can send her
The awkward pretender in this life
I wonder if you?ll love me tonight
I wonder if you?ll love me tonight
So delicate and lovely
I wonder if you love me
Are you on my side?
On my dark and lonely side
I?ll make it worth your while
I?ll give you every reason why
And all we?ll remember
A simple surrender just in time
I wonder if you?ll love me tonight
I wonder if you?ll love me tonight
So delicate and lovely
I wonder if you love me
You and I could wait and see
A single note don?t make a melody
You and I could wait and see
A single note don?t make a melody
All together you and me
A single note don?t make a melody
All together you and me
A single note don?t make a melody
All I?ve been saying
The one thing that's been
Weighing on my mind
I wonder if you?ll love me tonight
I wonder if you?ll love me tonight
So delicate and lovely
So delicate and lovely
I wonder if you love me tonight
Tonight, tonight, tonight
