

It's Been a Good Ride

Backlash

its been a good ride, the words you said to me,
words that scared me so terribly,
you see my friend the love was real
the love was real indeed,I would have walked 1000 miles to see your face again, its been a terrible few years
living with a means to an end, if only I could have spoken to you, I tried I tired I tried, you were so tied up with
anger it only made me cry.
I still don't understand you see what really happened to me.
the only thing I know for sure is for what I have there is no cure,
The love is real, I keep thinking I will melt. Theres nothing I would not trade to see you once again, I hope and
pray that someday you will let me into your heart again,If you find this I want you to know,
I protected you from the paper
and what it could have caused, but what it left me with was not worth the cost.
A giant gaping hole in my heart
100 miles wide,
I love you more than you'll ever know
and Ill never leave your side.
I never did just for the record.
