# I Think I'm a Clone Now

## "Weird Al" Yankovic

Isn't it strange?
Feels like I'm lookin' in the mirror
What would people say?
If only they knew that I wasPart of some geneticist's plan
Born to be a carbon copy man
There in a petri dish, late one night
They took a donor's body cell and fertilized a human egg and so I sayI think I'm a clone now
There's always two of me just a-hangin' around
I think I'm a clone now
'Cause every chromosome is a hand-me-downLook at the way
We go out walking close together
I guess you could say
I'm really beside myselfI still remember how it began
They produced a carbon copy man
Born in a science lab late one night
Without a mother or a father, just a test tube and a womb with a viewI think I'm a clone now
There's always two of me just a-hangin' around
I think I'm a clone now
'Cause every chromosome is a hand-me-downI think I'm a clone now
And I can stay at home while I'm out of town
I think I'm a clone now
'Cause every pair of genes is a hand-me-downSigning autographs for my fans
Come and meet the carbon copy man
Livin' in stereo, it's all right
Well I can be my own best friend and I can send myself for pizza so I sayI think I'm a clone now
Another one of me's always hangin' around
I think I'm a clone now
'Cause every chromosome is a hand-me-downI think I'm a clone now
I've been on Oprah Winfrey, I'm world renowned
I think I'm a clone now
And every pair of genes is a hand-me-downI think I'm a clone now
That's my genetic twin always hangin' around
I think I'm a clone now
'Cause every chromosome is a hand-me-down
I think I'm a clone now
