

# Change (interlude)

**Dawn Richard**

[Verse 1:] I don't know if he knows he's a diamond in the rough

Cause he used to me showing him that he's not enough

Need to start showing him every day

If he was Religion, I would be the faith.

[Chorus:] Things ain't changed, ain't changed

Still the same [x2]

I still love you like the angels do!

Ohh

It ain't changed, ain't changed

Still the same [x2]

I still love you like I'm suppose to!

Oh God, I pray he hears this

I want him to feel it

I won't see daylight

If it ain't right

I won't let you go tonight

Do you see love in my eyes?

Boy, you know I really try

I ain't letting you go

I won't let you walk out that door

Know I need to handle things that I ain't really used to be.

I'll work on it, baby.

[Chorus x2]
