

So Fine

Born Country

I went downtown to the local bar
to see what was happening
In walked in a pretty little thing
got to make her my girlfriend
She had a cowboy hat tight blue jeans
boots made of gator skin
She had that cowgirl look big blue eyes
big old southern grin
That girl really looks so fine
she's sassy and that's my kind
That girl she blows my mind
Well she walked right over next to me
and she climbed up on the stool
I said do you want a drink
or would you like to dance
or would you like to shoot a game of pool
She said I'll take a drink
and I'll dance with you
but I got certain rules
She said don't get fresh
don't rush me
cause I'm not your simple fool
That girl really looks so fine
she's sassy and that's my kind
That girl she blows my mind
That girl she blows my mind
That girl she blows my mind
