

Eats Away

28 Days

i cant stand the taste of defeat just like any man but i know i'll loose more sleep if i waste another chance for nothing more than the fear of the unknown don't wait don't wait people may have broken down you trust in yourself don't wait and it sits inside of you and it slowly eats away take that step so you take that bitter pill and it hurts when you swallow down on it so don't wait 'cause you know you cant afford to don't wait don't wait take a step just drop into place without your fear of failure you'll never know until you place some trust in yourself let the rest don't wait don't wait don't wait people may have broken down you trust in yourself so you take that bitter pill and it will slowly eat away eat away years may pass but nothing may ever change if you don't want that for a life and do something today all those dreams that you have not that far out of reach a life of what ifs the time that you waste the chances you had realise now that they may never come again the rest of your life has just begun so stop to the plate what's done is done the taste of defeat i cant stand i want you to feel the weight just like any man
