

Caterpillar Crawl

The Moffatts

Well, all the worms are ganging up down at the town hall
Working on plans for their annual ball
They've got all the bad apples that money can buy
For one last fling before becoming butterflies Well, it's the caterpillar crawl
Yeah, it's the caterpillar crawl
They've got fat ones, skinny ones, short ones and tall
And they all come to do the caterpillar crawl Well, there's fat, fast Freddie with all the right moves
And Slimy little Simon, he's a trailing ooze
Silly, skinny Minnie's out on the dance floor
Sally's working on an apple that's rotten to the core Well, it's the caterpillar crawl
Yeah, it's the caterpillar crawl
They've got fat ones, skinny ones, short ones and tall
And they all come to do the caterpillar crawl They get on their little bellies and they move real slow
Going round in circles, putting on a show
Cute little Kristin is the leader of the pack
While slow-crawling Calvin is bringing up the back Well, it's the caterpillar crawl
Yeah, it's the caterpillar crawl
They've got fat ones, skinny ones, short ones and tall
And they all come to do the caterpillar crawl Well, it's the caterpillar crawl
Yeah, it's the caterpillar crawl
They've got fat ones, skinny ones, short ones and tall
And they all come to do the caterpillar crawl
They all come to do the caterpillar crawl
