

# Baby Come Find Me At Christmas

[Rachael Yamagata](#)

Baby it's been too long  
The summer, the fall, the spring  
Too many season without you  
I've got hopes for what winter might bring Baby come find me at christmas  
When the trees are sleeping  
When the starry sky makes the snow gleam  
We'll start it all over again  
Come find me at christmas  
We'll be in love  
By new years eve  
Times makes a fool of the faithful  
Dreams slip away from the table  
Maybe its one for the angels Baby come stay with me  
When we wake we'll go skate on the frozen stream  
Build us a fire  
Drink something sweet  
I've been feeling so lost,  
so incomplete Baby come find me at christmas  
When the trees are sleeping  
When the starry sky makes the snow gleam  
We'll start it all over again  
Baby come find me at christmas  
Where the snow is falling  
I'll give you all of my lovin  
The second you walk through the door  
Come find me at christmas  
By new years eve we'll toast to our love like never before  
We'll toast to our love forever more
