Like The Rose

B*Witched

Every little word, with every lesson learned
I think I know why hearts are made of stone
Every little pain, fans a bitter flame
Nothing stops me loving youWell cant you see that we belong?
Oh how I want it to be
So tell me do you feel the way I feelBaby like the rose, oh darling
You put color in my life
Baby take my heart forever
Cause I dont want to be afraid, no, noTurn another page, the story will never fade
Sleep with thoughts of you until daylight
When youre far away, forever love will stay
Keep this loving feeling deep insideCant you see that we belong?
Oh how I wanted to be
So tell me do you feel the way I feelBaby like the rose, oh darling
You put color in my life
Baby take my heart forever
Cause I dont want to be afraid, no, noBaby like the rose, oh darling
You put color in my life
Baby take my heart forever
Cause youre the color in my life, oh
Like the rose
