

Like The Rose

B*Witched

Every little word, with every lesson learned
I think I know why hearts are made of stone
Every little pain, fans a bitter flame
Nothing stops me loving you Well cant you see that we belong?
Oh how I want it to be
So tell me do you feel the way I feel Baby like the rose, oh darling
You put color in my life
Baby take my heart forever
Cause I dont want to be afraid, no, no Turn another page, the story will never fade
Sleep with thoughts of you until daylight
When youre far away, forever love will stay
Keep this loving feeling deep inside Cant you see that we belong?
Oh how I wanted to be
So tell me do you feel the way I feel Baby like the rose, oh darling
You put color in my life
Baby take my heart forever
Cause I dont want to be afraid, no, no Baby like the rose, oh darling
You put color in my life
Baby take my heart forever
Cause youre the color in my life, oh
Like the rose
