

Fire At Will

Jonah 33

hold your breath
dont make a sound
watever you do keep your head down
form in line
dont waste no time
they dont know were moving in
you keep your eyes on me
forget about your sanity
this is not a place for weakness move and i say go
are you ready get ready are you ready now

fire at will
make sure that no one makes it out alive tonight
fire at will
go ahead and make the kill take your aim and fire at will

theres no place to cry
to come inside with what were made of
fortify your weakness and we'll kill em' with our love
do your best not to forget
what were fighting for
weve only won this battle but we havent won the war

fire at will
make sure that no one makes it out alive tonight
fire at will
go ahead and make the kill
take your aim and fire at will
