

# With Love (DJ Kaya Remix) (Japan Bonus Track)

[Hilary Duff](#)

I don't mind you telling me what's been on your mind lately  
I don't mind you speaking up  
I know sometimes I can be all wrapped up and into me  
I can be in such a rush Just slow me down, slow me down  
Tell me, tomorrow, everything will be around  
Just slow me down, slow me down  
You're the one who keeps me on the ground Baby, you can be tough  
Say enough is enough  
You could even be blunt  
Just do it with love, love, love, love  
Tell me I'm wrong  
That I'm coming on way too strong  
Don't think I'll be crushed  
Just do it with love, love, love, love Just do it with love, love, love, love  
Just do it with love I can take your honesty  
All your words weigh heavily  
Listening to you all the time (all the time)  
I wanna be there for you the way you've been there for me  
Always help me walk the line (walk the line) And slow me down, slow me down  
I know you will always be around Baby, you can be tough  
Say enough is enough  
You could even be blunt  
Just do it with love, love, love, love  
Tell me I'm wrong  
That I'm coming on way too strong  
Don't think I'll be crushed  
Just do it with love, love, love, love All this time we finally know each other  
Now that I've been leaning on your shoulder  
I can tell you, baby, that  
You're right when you're right  
You're wrong when you're wrong  
And I can be weak 'cause I know you'll be strong Baby, you can be tough  
Say enough is enough  
You could even be blunt  
Just do it with love, love, love, love  
Tell me I'm wrong  
That I'm coming on way too strong  
Don't think I'll be crushed  
Just do it with love, love, love, love Baby, you can be tough

Say enough is enough  
You could even be blunt  
Just do it with love, love, love, love  
Tell me I'm wrong  
That I'm coming on way too strong  
Don't think I'll be crushed  
Just do it with love, love, love, loveJust do it with love, love, love, love  
Just do it with love, love, love, love  
Just do it with loveJust do it with love
