

Someday Soon

Doves

Someday soon you'll know how it feels to love someone
All my love and all my heart go with you
Just look into my eyes and what can you see?
But all my love and all the time keep with me
I'll keep it with me
Someday soon you'll know how it feels to love someone
Someday soon you'll know how it feels to trust someone
Seven days and seven nights have fallen
Empty streets and bright lights he's walking
So why is it the ones we love we can't trust?
We can't trust
Because someday soon you'll know how it feels to love someone
Someday soon you'll know how it feels to trust someone
To trust someone, someone
It's been a while since I loved someone
