# Happy Annie

## Ima Robot

Happy Annie wakes up scared
It's such a big day, she's unprepared
She wanted this since she was a girl
More than anything in the whole wide worldForget your mom's white wedding dress
And play bride with the family pets
In her bedroom bells were ringing
Oh, she imagined everyone singingBut she never thought it's this way
'Cause she loved, she loved
She loved, she loved himLook how she loves
Look how she loved himWake up Tommy, do you feel the pain
That you got inside?
Find your mommy, spread her legs
And climb back up insideBoys who trap animals
Are animals themselves
So wake up Tommy, don't you know
That you're going to burn in hell?But he never thought it's this way
'Cause he loved, he loved
He loved, he loved herLove, love, love
Love, love, loveThis is the truth
Try to find some youth
Watch it all go byHappy Annie, so much pain
She can't break free from the chain
But she's thinking about what she never did
She want adventure but she loves her kidsLove with her man has slowly died
Don't talk about it, she prefers to lie
In her bedroom bells were ringing
Oh, she imagines everyone singingWake up Tommy, can you feel the pain
That you caused inside?
Look at mommy, as she finds
A place for her love to hideBoys who trap animals
Are animals themselves
So set her free man, you will see
Dad, you'll be free as wellBut they never thought it's this way
'Cause they loved, they loved
They loved, they lovedNo, they never thought it's this way
'Cause they loved, they loved
For they loved, they lovedThey loved us
