Niagara Falls

Chicago

Baby, so you think you can start again?
You got somebody new
But the same thing keeps happening
At the moment of truth
Whoever you're loving
You will be thinking of meAs long as Niagara falls
As long as Gibraltar stands
Till Hell freezes over
I'll always be your manTell me
When you're there lying by his side
Do you make him believe
All your needs have been satisfied?
Does he know that your heart is taken forever?
Girl, you will always be mineAs long as Niagara falls
As long as Gibraltar stands
Till Hell freezes over
I'll always be your manTime can't erase
What you feel in your heart?
(You can't replace the love)
No, it doesn't matter how hard you try
Girl, you're gonna miss my loving
'Till the day you die
('Till the day, 'till the day)Till Hell freezes over
I'll always beAs long as Niagara falls
As long as Gibraltar stands
Till Hell freezes over
I'll always be your manAs long as Niagara falls
Until the end of time
Till Hell freezes over
I'll always be your manAs long as Niagara falls
Until the end of time
Till Hell freezes over
You are forever mineAs long as Niagara falls
As long as Gibraltar stands
Till Hell freezes over
As long as Niagara falls
As long as Gibraltar stands
Till Hell freezes over
