

# Beauty Meat

## Sun Club

It's the weathers fault your friends are lost,  
you looked at it,  
saw you had nothing to do with it.  
It's the weathers fault that you are hurt,  
so insecure  
but maybe it's not your fault.  
No not at all. And when the weathers cold it brings us down  
we say it sucks  
but it just makes us all artists.  
When the weathers cold it brings us down  
its seasonal  
but why do I feel it in summer or all the time.
