

Dixieland

Jackyl

Down south where the air is wet
The red clay rules and you can bet
It makes me proud, I'll never forget
My Dixieland Fulton County Georgia, that's where I was born
With a fire in my tail and a devil's horn
Daddy never listened to my mother's scorn
He loved to play it loud and he played it loud Look away Dixieland
'Cause we're a rock n' roll rebel Dixie band
Look away Dixieland I lost a lot of time ten years to the day
I lost a lot of time trying to find my way
If I make it back home, I'll be okay With ice tea wishes and corn bread dream
It keeps me going or so it would seem
I keep it up, never let up steam
I sing it loud and proud, loud and proud Look away Dixieland
'Cause we're a rock n' roll rebel Dixie band
Look away Dixieland, look away Dixieland And when the day comes around that my music's gone
Don't leave me here and don't leave me alone
Just take me back home with the boys in the band
We'll start it back up in Dixieland Look away Dixieland
'Cause we're a rock n' roll rebel Dixie band
Look away Dixieland, look away
'Cause we're a rock n' roll rebel stomp our way outta hand
So look away Dixieland, look away Dixieland, look away Look away Dixieland
