Food For Songs

Del Amitri

Well, there's people hauling people
Out from under their homes
Yeah, there's people hauling people
Out through the groaning stonesYou can see me tonight
I'll be shell shocked and white in the cold light of dawn
But I ain't gonna cry just to give some guy
Food for songsPeople going hungry
Stand like a sackfull of bones
People going hungry
Feeding a billion homesSo I put my dead child down, you put your TV on
Well I ain't gonna cry just to give some guy
Food for songsYeah, there's people beating people

To keep the system strong

Yeah, there's people beating people

To keep the illusion goingSo I'm gonna fight every day of my life 'til they're gone
But I ain't gonna die just to give some guy

Food for songs

Food for songsYeah, there's people holding people

Making those wailing sounds

Yeah, there's people holding people

Watching them lower me downSo I take my leave and you take what you see

And you make it what you want

But when I see you in Hell, I will give you some

Food for songs
