Felicity

Fred Neil

Felicity, you and me,
Could we make it three
If we only had the time?
Imagine life as man and wife
Would be as yours and yours as mine, yeah.
Never mind the weather, birds of a feather,
We'll stick together won't we, Felicity?

When on the roads, drive carefully.
Remember you belong to me,
Don't take chances in the sea.
We'll sit and watch the sunshine charge
And maybe cover our eyes,
Tell the man to turn the power off the TV.

We'll have a small celebration,
Just a few weeks vacation.
Whatever I do, we're free,
You and me, Felicity, yeah.
Never mind the weather, birds of a feather,
We'll stick together won't we?
But still you're just a dream.

I'm talking 'bout Felicity.
