

# First Bus to Babylon

**Hugh Cornwell**

God it takes so long  
You have to be so strong  
When they try to prove you wrong  
Get the first bus to Babylon You wanna be alone  
Try to disconnect the phone  
Try to bury every bone  
Get the first bus to Babylon How can it be, when you want to be free  
There's a conspiracy working around you  
Children can tell what we know very well  
They believe in the spell, they're on the bus When we're dead and gone  
When we get where we belong  
When we've sung the final song  
Get the first bus to Babylon How can it be, when you want to be free  
There's a conspiracy, working around you  
Children can tell, what we know very well  
They believe in the spell, they're on the bus When we're dead and gone  
When we get where we belong  
And we've sung the final song  
Get the first bus to Babylon
