Jeannie Is Dancing With the SunÂ

Fool's Garden

Jeannie is dancing with the sun
Saving the world while she is out there
She knows
She knows it allShe's a queen
She's a beautiful dream
She's such a wonderful thing
And tonight
She is out
To heal the desolate sky
Because she knows how to fly
To the light
Baby can you feel it
Baby we can heal it out there
Everybody's singing
Everybody's singing - yeahJeannie is dancing with the sun
Saving the world while she is out there
She knows
She knows it allTake a ride
To the magical sky
Where you can learn how to fly
At her side
Kissing stars
Passing venus and mars
Getting over across
To the light
Baby can you feel it
Baby we can heal it out there
Everybody's singing
Everybody's singing - yeahJeannie is dancing with the sun
Saving the world while she is out there
Baby can you feel it ?
She's saving the world out there
Jeannie is dancing with the sun
Saving the world while she is out therecan you feel the invisible world ? - get in
you can see it when you listen to her - get in
let it out
let it outJeannie is dancing with the sun
Saving the world while she is out there
Baby can you feel it ?

She's saving the world out there
Jeannie is dancing with the sun
She knows
She knows it all, it all, it all
Jeannie is dancing with the sun
Saving the world while she is out there
She is out there tonight
