

# Champagnechroniknightcap

## Solange Knowles

[Intro: Solange]Oohh

Ba ba baaa ba-da ba...

Oohh

Ba ba baaa ba-da ba...

[Verse 1: Solange]Now I don't wanna stay out tonight

What do you think about that

Does it sound like a plan

And I don't wanna feel out a crowd

And I got a nice one with a plan

And a light and a match

[Chorus: Solange]Let's just so,

Let's just so,

Let's just so,

Let's have a champagne chronic nightcap

[giggles]Light the dro,

Sip on mo'

Let's just so

We'll have a champagne chronic nightcap

What you feel about that

Oohh (Oohh)

Oohh (Oohh)

Oohh (Oohh)

Don't you wanna elevate babe

It could be so great babe

Oohh (Oohh)

Oohh (Oohh)

Oohh (Oohh)

Don't you wanna take me higher

Take me highhher...

[Verse 2: Solange]So this is and occasion so light

Can do so let's live for the night

And you bring up the light

Cause honey I'm no blazer alright (Blazer)

But I know to keep up the hour and just live for awhile

So what cha think about that (That...)

[Chorus: Solange]Let's just so,

Let's just so,

Let's just so,

Let's have a champagne chronic nightcap

(Champagne chronic nightcap)  
Light the dro,  
Sip on mo'  
Let's just so  
We'll have a champagne chronic nightcap  
What you feel about that  
[Bridge: Solange]Listen baby, yeah  
Cause I don't wanna feel no pain  
No baby  
The trials of another day  
Just seem to fade away  
When it's just me and you  
Good ooh-woo  
Maybe a drink or two baby  
Let's make these walls?  
[Verse 3: Lil Wayne]Ha,  
Yea, I'm with you  
My shovel get me to your level  
Cause I dig ya

I Stevie Wonder, ponder, think, figure, dream of you daily  
Why would I kid you  
I'd rather practice making a kid  
But I'm full to the leg  
Yes, maybe baby but I digg ya  
Carter creates chemistry with charisma  
Now maybe it's the chronic we twist up  
See we can get high  
I hope we get stuck  
Now do you  
You got that ooh woo  
Swisha sweet  
Make me wanna L-I-G  
You are  
No war  
We can talk about the war  
What's right and wrong  
Cry right song couple stars  
And that you so are  
I can make tonight so good you wouldn't want to see tomorrow  
You're chief!  
Yeah, you feel me baby  
[Solange (Lil Wayne):]Sometimes (sometimes)  
I just want it to be  
Me and you

Me and you and some good ooh-woo  
(I agree)  
Just me and you and some good ooh-woo  
(I can definitely second that, baby)  
Just me and you and you and you  
[Spoken: Solange & Lil Wayne][Solange:]Yo chief  
[Lil Wayne:]Yeah, what cha talkin about?  
[Solange:]Can you pass me that umm...  
[Lil Wayne:]Of course you would  
[Solange:]That good ooh-woo  
[Lil Wayne:]Look at you  
[Solange:]Just for the night baby  
[Lil Wayne:]Just for the night  
[Solange:]Now c'mon over here  
[Lil Wayne:]You got me  
[Both laugh][Chorus: Solange]Let's just so,  
Let's just so,  
Let's just so,  
Let's have a champagne chronic nightcap  
[giggles]Light the dro,  
Sip on mo'  
Let's just so  
We'll have a champagne chronic nightcap  
[Outro: Solange]Oohh  
Ba ba baaa ba-da baa...  
Oohh  
Ba ba baaa ba-da baa...  
[Music ends]BLAZER...
