

Makes Her Sick

Cold

All the world's just a fake
Meant to drop you when you fall
Everyone gets blown away
And everyone is gone I can see the only tie
Links you back to where you came
No one showed you any hope
And everyone loves Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow Still the needle loves to sing
Scream your name and take you home
Found yourself a brand new love
Made you feel like God I can see it all the time
Mother told you keep it straight
No one showed you any hope
And everyone loves Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow Now the sun has gone away
And all the love you have is gone
Now it's all a big mistake
And you don't feel like God I can see the only tie
Links you back to where you came
No one showed you any hope
And everyone loves Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow up
Well it makes her sick
Well it makes her grow up
Well it makes her sick

Well it makes her grow Well it makes her grow

Well it makes her sick

Well it makes her sick

Well it makes her sick

Well it makes her sick

Well it makes her grow
