

# Life On Mars

Robbie Stewart

If you said call me, Iâ€™d certainly call on you, mama  
But first you must layout your number then tell me what youâ€™d like to do  
And if you said meet me, right behind some shady tree  
I would climb up any mountain and forage any old stream

(Chorus):

And are you a hard loving woman who never wants to stop?  
Are you a high flying cowgirl riding on wings of Shangri-La?  
Come on, come on baby, wonâ€™t you come on out and play  
I still remember an innocent smile and your thoughts of yesterday

(Bridge):

Young Lovers, whiskey and life on Mars  
Oh and look up at all of those stars  
They are what you are so far

(Second Verse):

If you said love me, Iâ€™d certainly make love to you, darlinâ€™  
And if I treated you like a princess would you come  
down and be my rodeo Queen  
And do you like to daydream about mountains, valleys, streams?  
If I could mix them all together for you in some enchanted theme

(Repeat Chorus and Bridge):

Young Lovers, whiskey and life on Mars  
Oh and look up at all of those stars (Oh, and wish upon a star)  
They are what we are so far

If you said call me, Iâ€™d certainly call on you, mama  
But first you must layout your number then tell me what youâ€™d like to do
