

You Make It Feel Like Christmas

Neil Diamond

Cozy we are
Closer than far
Sounds of forever still around Lovers in love
Just like we were
'Cause being apart's a lonely sound And when people ask how we stay together
I say you never let me down, ye
And you make it feel like Christmas
Even when things go wrong
I hear the sound of Christmas in your song
All year long Look at the sun
Shining on me
Nowhere could be a better place Lovers in love
Yeah, that's what we'll be
When you're here with me
It's Christmas day 'Cause you make it feel like Christmas
Even when things go wrong
I hear the sound of Christmas in your song
All year long
That's how you know that's it true baby Just look at us now
Part of it all
In spite of it all
We're still around So wake up the kids
And put on some tea
Let's light up the tree
It's Christmas day
And, you make it feel like Christmas
Even when things go wrong
Say it now
I hear the sound of Christmas in your song
All year long
Yes, you know that I do, baby
All year long
