

# Abandon Your Friends

## From Autumn to Ashes

Young women and young men  
Forgive us if you can  
Abandon your best friends  
Demanding, detrimentLeaving your lover home waiting  
Putting much faith in her patience  
Don't fool yourself it's not endless  
Phone calls are poor consolationsWe've abandoned our best friendsLeaving your lover home waiting  
Putting much faith in her patience  
Don't fool yourself it's not endless  
Phone calls are poor consolationsWe've abandoned our best friends
