Roll Away

Dusty Springfield

Everyday when I look in the mirror
I try to see where my soul's at now
Happy day, is it further or nearer?
On the way, will I find it somehow?
Yesterday's gone
Love lead me on
Oh, I won't ask why
Roll away, it's only time and the river
Roll away to the endless sea
Roll away, it could all change tomorrow
This is life in it's glory
And the river runs free, roll away
My dreams build the walls of city
Broken hearts tear them all down
It ain't always easy and pretty
It's just the world turning around
Give us this day
Give us this night
Oh, it'll be all right
Roll away, it's only time and the river
Roll away to the endless sea
Roll away, it could all change tomorrow
This is life in it's glory
And the river runs free, oh, roll away
Everyday when I look in the mirror
I try to see where my soul's at now
Roll away, it's only time and the river
Roll away to the endless sea
Roll away, it could all change tomorrow
This is life in it's glory and the river runs free
Roll away, it's only time and the river
Roll away to the endless sea
Roll away, it could all change tomorrow
This is life in it's glory
And the river runs free, roll away, ah, oh
Roll away, roll away, ah, ha, ho, roll away
