For Starters

A

Well, we did this once before
And we're giving it some more
And it's okay to be as you are, you know
It's always five on one, you'll notice when we're done
That nobody got hurt
You're the same as what you were, you know, yeah
I've got something for starters
Throw it up in the air and I bet you don't care
We're getting louder
Well, it sounds okay to me, on the desk at I C P
Roll the tape, 'cause we're rocking album two
And our manager don't mind 'cause we put that all behind
We've got another bite
And you know the time is right to rock for you
I've got something for starters
Throw it up in the air and we really don't care
We're getting louder
Hey, it's another day in A
I'm proud to be myself, 'cause rock made me this way
I said, "hey, I've got plenty more to say"
So let me clear my throat, 'cause I'm not cool Britannia
Not getting any younger, they hate me at me
I don't care where you've been, I don't care for your scene
You make me feel like an amputee
Yeah, I've got something for starters
Throw it up in the air and we really don't care
We're getting louder
Yeah, I've got something for starters
Throw it up in the air and we really don't care
We're getting louder
