Daisy Chain

Pop Evil

I know you're too hot to handle
But you're the best I ever had
Inside you hope for a scandal
I love a good girl gone bad
So tell me do you want to play

So bring your daisy chain
Come on girl on your knees
Bow down like your starting to pray
Come on little girl when you're riding me
Everybody knows how you sex me dirty
So get up and come over
And get off when I am done
Everybody wants to ride

Damn girl you can play the field
You're a porn star girl, the truth's revealed
So get up if you got something to say
The night is young and if you want to stay
Well, tell me do you want to play

So bring your daisy chain
Come on girl on your knees
Bow down like your starting to pray
Come on little girl when you're riding me
Everybody knows how you sex me dirty
So get up and come over
And get off when I am done
Everybody wants to ride
Everybody wants to ride

What you do to me
Isn't new to you
Do you want to play?
Come on get up girl
And give it to me
Do you want to ride the chain?

So get up and come over
And get off when I am done

Everybody wants to ride
Everybody wants to ride

So get up and come over
And get off when I am done
Everybody wants to ride
Everybody wants to ride

So bring your daisy chain
Come on girl on your knees
Bow down like you're starting to pray
Come on dirty girl when you're riding me
Everybody knows how your sex is dirty
So get up and come over
And get off when I am done
Everybody wants to ride
And come over when I am done
Everybody wants to ride
Everybody wants to ride
