

Until the End

Breaking Benjamin

Advisory - the following lyrics contain explicit language:

So clever, whatever, I'm done with these endeavors
Alone I'll walk the winding way, here I stay
It's over, no longer I feel it growing stronger
I live to die another day, until I fade away Why give up? Why give in? It's not enough, it never is
So I will go on until the end
We've become desolate, it's not enough, it never is
But I will go on until the end Surround me, it's easy to fall apart completely
I feel you creeping up again in my head
It's over, no longer I feel it growing colder
I knew this day would come to end, so let this life begin Why give up? Why give in? It's not enough, it never is
So I will go on until the end
We've become desolate, it's not enough, it never is
But I will go until the end I've lost the way, I've lost the way
But I will go on until the end
Living is hard enough without you fucking up Why give up? Why give in? It's not enough, it never is
So I will go on until the end
We've become desolate, it's not enough, it never is
But I will go on until the end I've lost the way, I've lost the way
But I will go on until the end The final fight, I win
The final fight, I win
The final fight, I win
But I will go on until the end
