

Ice Age (feat. deadmau5)

How to Destroy Angels

I find it looks the same, but everything has changed
I find remembering gets harder every day
Sometimes I still believe who I pretend to be
Sometimes, well everything's exactly how it seems I see the color of your eyes turn to gray
I feel the wind is growing colder every day
Sometimes I open up the walls and disappear
Sometimes the crashing of the waves is all I hear Ocean, help me find a way
Ocean, wash us all away I know that everything we did will come around
I take the thought of you and burn it to the ground
Sometimes I'm waiting for this ice age to arrive
Sometimes the hate in me is keeping me alive
