

Caught In the Middle

Bellarive

I need to stop and breathe You in
For my lungs need more than oxygen
To take in the Kingdom
You're recreating life
From Heaven to Earth our hearts collide
So just split the skyCome
Won't You swing the gates wide open?Heaven open up
Let Your glory fall
Reign over us
As Heaven meets Earth
To magnify, You, Lord of all
The saints and angels sing along
Heaven open up
We'll be caught in the middle
I need the mud from Your hands
Though my vision's clear, I'm still a blind man
If faith is sight in the Kingdom
You're recreating life
From Heaven to Earth our hearts collide
So just split the skyCome
Won't You swing the gates wide open?Heaven open up
Let Your glory fall
Reign over us
As Heaven meets Earth
To magnify, You, Lord of all
The saints and angels sing along
Heaven open up
We'll be caught in the middle
Just breathe
Now I seeHeaven open up
Let Your glory fall
Reign over us
As Heaven meets Earth
To magnify, You, Lord of all
The saints and angels sing along
Heaven open up
We'll be caught in the middleJust breathe
Now I see
