Life Is Beautiful

Vega 4

Life is beautiful
We love until we dieWhen you run into my arms
We steal a perfect moment
Let the monsters see you smile
Let them see you smilingDo I hold you too tightly?
When will the hurt kick in?Life is beautiful
But it's complicated, we barely make it
We don't need to understand
There are miracles, miraclesYeah, life is beautiful
Our hearts, they beat and breakWhen you run away from harm
Will you run back into my arms
Like you did when you were young?
Will you come back to me?I will hold you tightly
When the hurting kicks inLife is beautiful
But it's complicated, we barely make it
We don't need to understand
There are miracles, miraclesStand where you are
We let all these moments pass us byIt's amazing where I'm standing
There's a lot that we can give
It's just ours just for a moment
There's a lot that we can giveIt's amazing where I'm standing
There's a lot that we can give
It's just ours just for a moment
There's a lot that we can give
